## DAY 2: SNAKE LAGOON TO CAPE DU COUEDIC

Day two on the Kangaroo Island Wilderness Trail takes us along the Rocky River towards its mouth at the coast. Not long into the walk you'll be rewarded with your first breathtaking view of the mighty Southern Ocean. Here at the edge of the world there is nothing but the deep blue sea between you and Antarctica. The trail then heads south along the island's wild and rugged coastline where birds of prey may be seen flying over the land and sea. Keep an eye out to sea for a chance to spot bottle-nosed dolphins, or perhaps a seal or sea-lion. If you're visiting between June and early October, you may even be treated to the majestic sight of Southern Right Whales on their annual migration to the Great Australian Bight. Upon reaching Maupertuis Bay we descend from the clifftop onto the bone white beach below. Seafarers found this wild coastline unforgiving, with the remnants of shipwrecks that cost the lives of many, still visible today. The trail eventually winds its way back up to the rocky clifftop, bringing you ever closer to the famous Cape du Couedic Lighthouse that sits atop the headland in the distance. Pause for a final look back on your day's journey along the spectacularly beautiful coastline of Maupertuis Bay. When the trail turns inland you'll be treated to softer conditions underfoot for the final stretch. We visit nearby Admirals Arch to view the enchanting antics of Australian and Long-nosed fur seals and Australian sea-lions, that visit this section of the coast. We finish the day with a spectacular sunset before a short transfer to our accommodation.

We explore the sea cliffs, have the chance to visit the historic lighthouse, and take a tour of the museum. A short transfer takes us to the start of our day's walk, the spectacular Ravine Des Casoars hike. The track starts in lush forest teaming with a huge variety of birds and wildlife. Hiking closer to the coast the vegetation changes and the beautiful beach and impressive sea caves come into view. After a delicious lunch on the beach we explore the coast. Returning to our accommodation we enjoy another tasty dinner prepared by your guides.

## DAY 4: REMARKABLE ROCKS TO HANSON BAY

An early start this morning to avoid the crowds and catch first light at Remarkable Rocks. Incredible photo opportunities abound as we walk amongst the 500 million year old precariously balanced granite boulders; their stunning abstract shapes and colours are a Kangaroo Island must see! Continuing on the Wilderness Trail, the trail hugs the coastline and offers cinematic views that inspire both awe and contemplation – be sure to glance back from time to time for an ever changing view of the captivating Remarkable Rocks. Throughout our hike the Island's abundant native wildlife comes into focus as the trail takes us through undisturbed native vegetation and spectacularly rugged coastal scenery. After a short side-trip to the isolated and pristine Sanderson Bay, the trail meanders inland and heads towards Hanson Bay where we are treated to a dramatic change in vegetation from low coastal heath to tall dense mallee and tea tree. Transfer to our accommodation.

We trek alongside freshwater lagoons and over dunes to viewpoints providing incredible vistas inland and along the coast. Our walk concludes at the spectacular Hanson Bay. After another lovely lunch, we make our way to Seal Bay Conservation Park, where we enjoy a National Park Ranger guided walk amongst one of the world's rarest mammals, the Australian Sea-Lion. After the tour, on our way to Penneshaw we have the option of visiting Clifford's Honey to taste some local produce.
